"The Lord said to Moses, "This month is to be for you the first month, the first month of your year."

Tell the whole community of Israel that on the tenth day of this month, each man is to take a lamb for his family, one for each household...

Eat it in haste; it is the Lord's Passover. On that same night I will pass through Egypt and strike down every firstborn - both men and animals - and I will bring judgement on all the gods of Egypt."

Exodus 12:1-3, 11-12
(New Int'l Vers. ©1986)

Focus: 5768 III

(9/13/2007 - 9/29/2008)

This is the 3rd set of installments of an ongoing series. The premise is simple: *For over a decade, I have focused my - and readers' - attention on the period of 2007/2008 as a time of great significance when a plethora of cycles aligns...* This cycle is linked to earth-disturbance cycles, geopolitical and war/peace cycles, market cycles & a host of other related and (seemingly) unrelated events & cycles...it is the **synergy** of these events and cycles - NOT necessarily their individual importance or lack thereof - that increases the significance of this period...

Focus: 5768 - Chapter XI

(9/13/2007 - 9/29/2008)

360's & 720's Abound

I want to return to what is one of the most unique cycles in human history. It is the cycle of 360 years, which reinforces the geometric nature of time (360 degrees).

In the **Cycle of Time** Series (published in the 1990's, the **Cycle of Time V** is still available to subscribers that have not previously read it), I described many long-term occurrences of this, most notably a period of 1 'week' of 360-year days (2520 years total) since the Biblical prophecies in the book of Daniel (while in captivity in Babylon).

This giant 'week' reached fruition in the Julian/Gregorian year of 2000 and was projected to usher in a 7-year, 12-year and 19-year period of great transition to 'kick off' a new 360-year cycle.

The first full year (based on the Jewish calendar, since this major cycle had to do with the Jewish people) of this new 360-year 'day' lasted from September 2000 - September 2001 and witnessed bookend-like events that have already changed the world.

September 2000 was supposed to be the culmination of the 7-Year Oslo Peace Accord 'covenant' but instead witnessed the rejection of all Israeli peace concessions and the start of a new intifada against the Jews.

September 2001 drew America into the same battle. Islam is on one side. Judeo-Christianity is on the other.

“He has showed you, O man, what is good. And what does the Lord require of you? To act justly and to love mercy and to walk humbly with your God.

...You have observed the statutes of Omri and all the practices of Ahab's house, and you have followed their traditions. Therefore, I will give you over to ruin and your people to derision; you will bear the scorn of the nations.”

Micah 6:8, 16 (New Int'l Vers. ©1986)

September 2007 - September 2008 should see the next major 'event(s)'.

...The period of 2011/2012 is 3 1/2 years from the end of 5768 (Sept. 2008).

...As I have already noted, the battles for the 'Kingdom of Jerusalem' - in 1258 - 1291 AD - play an important role in the recurring cycles of (360 & 720 years.

The next cycle began in 1978 and runs through 2011 (720 years after 1258 - 1291). 1978 culminated the first 30 years of Israel's statehood with the Camp David Accord. 1979 began the most overt phase of a 'Muslim versus the West'

conflict that could reach a crescendo in 2008 - 2011.

www.insiidetrack.com

This 720-year cycle has some interesting *history*.

720 years *prior* to 1258 - 1291 was the period of 538 - 571 AD. Mohammed was born in 570/571 AD (depending on who you ask). So, 2 periods of 720 years or 4 periods of 360 years from the birth of Mohammed - is 2010/2011 AD.

720 years before 538 - 571 AD was the period of 183 - 150 BC. The desecration of the Temple and the Maccabean Revolt took place in 168 - 165 BC. Again, Jerusalem was the focal point.

720 years before 183 - 150 BC was the time of Omri and Ahab as rulers of Israel (afterwards referred to as 'Omri-land' by the Assyrians). This is the time when Omri rejected Jerusalem (setting up the capital in Samaria) and Israel rejected YHWH, leading to Elijah's confronting Ahab & Jezebel (and ultimately to Israel's extinction as a national entity).

These three individuals are important precursors - or archetypes - to a future Jewish leader (Ahab) 'marrying' a neighboring leader who worships another god (Jezebel, who worshiped Ba'al and led Ahab down a destructive path) - perhaps by means of a 'peace covenant' - and ultimately being confronted by a 'prophet' or 'witness' sent by God (Elijah).

And, they are all connected - by the cycle of 720 years - to the current period (leading into 2011). But, that is not all... *IT*

Focus: 5768 - Chapter XII **(9/13/2007 - 9/29/2008)**

360's & 720's Abound - Part II

03/30/06 - The Cycles of 360 & 720 represent 1 and 2 'Cycles of Time'. It is at the transition time - from one of these cycles to the next - when most of the decisive and noteworthy events take place. ..The final 3-5% of a maturing cycle (approximately 11-18 years) and the initial 3-5% of the next developing cycle (another 11-18 years) are often when the most noteworthy events take place.

Corroborating events are often seen at the 180-year point (give or take 10 years since these transitions often consume 2-3% of the maturing and developing 180-year cycle) and periodically at the 90-year intervals.

The most important cycles, however, are often more precise - with events occurring right on or very near the precise transition times. Such was the case with the culmination of a giant 'week' (7) of 360-year 'days' that reached fruition in 2000/2001 AD.

The first full year (based on the Jewish calendar) of this new 360-year 'day' lasted from September 2000 - September 2001 and witnessed new attacks against Israel followed by attacks against America.

Note that these two nations - more than any others in the world - are associated with the God of the Bible. Israel represents the Old Testament and America - known by the rest of the world as a 'Christian' nation (whether or not our actions always validate this) - represents the Church and the New Testament.

The first 11-18 years of this new cycle (the first '3 minutes' of a new 'hour' of human history) are likely to see the culmination of a war that has been waged on earth for the last 900 - 1,000 years (since the Crusades) and the last 2,900 - 3,000 years (since the births of Ishmael & Isaac).

September 2007 - September 2008 ushers in the second 'minute' and should see the next major 'event(s)'... *IT* www.insiidetrack.com [End excerpt from *Chapter XII* - Entire text of *Chapter XII* - and entire Report: **Focus 5768 III** - available to all new subscribers.]

Focus: 5768 - Chapter XIII **(9/13/2007 - 9/29/2008)**

A Necessary Update... and Review

04/27/06 - **April 10, 2006** could go down in history as a watershed date. Similar to - but in increasing significance to - the 1998 declaration that Pakistan 'had the bomb', Iran announced that it had the enriched uranium necessary to 'make the bomb'. This followed Iran's April 1st successful test of the 'fastest torpedo in the world'... the Fajr-3 missile. Here's the interesting part...

Most scientists estimate it will take about two years for Iran to complete the construction of a

nuclear bomb. Now, if my calculations are correct (adding '2' years to **April 10, 2006**), I come up with **April 2008**... in the middle of the momentous year of **5768**. Coincidence?

...**2008** is the time when Iran's leader believes the '12th Imam' will appear. The *Cycle of 360* has previously been shown to correlate this Imam to the year 2011 (give or take a couple years). Iran's current leader - Ahmadinejad - believes it is his calling to usher in the appearance of the 12th Imam, which must be precipitated by great tribulation. www.insiidetrack.com

And here is another interesting correlation...

Shia Islam sees this figure as the same rider on the white horse depicted in Revelation 6:1-2. Christianity views this 'rider' as the antichrist.

In either case, this figure is described as 'a conqueror bent on conquest' who is followed by the rider on the red horse ('given power to take peace from the earth and to make men slay each other'), then the rider on the black horse (related to the onset of massive inflation - 'a quart of wheat for a day's wages' - that could be caused by drought, crop contamination or disease) and finally the 'rider on the pale horse' who was given 'power over the earth to kill by sword, famine and plague... and wild beasts'.

...10 years ago, an event like September 11, 2001 was also 'so negative' and unimaginable that no one deemed it possible...

But, all of that is a moot point. It does not matter what the 'West' *wants* to think or believe IF there is a very powerful Islamic leader who believes he is called to usher in this exact scenario (the only difference is that his perspective is the fulfillment of the Islamic need to conquer the rest of the world). To him, this is a necessary evil.

...**May 14, 2008** is the 60-Year anniversary of the birth of the State of Israel. For every minute of those 60 years, significant portions of the Arab Middle East have declared their desire to 'drive Israel into the Sea'.

Will they attempt to simply vaporize Israel?

...Or will Israel act preemptively?

...**April 2008** will be 2 years from Iran's successful torpedo/missile test, its most significant step toward creating a nuclear bomb, and its delivery of related missiles from N. Korea. All those crazy cycles and anniversaries surely couldn't have any significance... Could they? *IT* www.insiidetrack.com

Focus: 5768 - Chapter XIV (9/13/2007 - 9/29/2008)

Time, Times and Half a Time...

05/31/06 - Last month, I reiterated several cycles that have to do with the time frame of **2008 - 2011** (or 2012). This period is expected to be momentous and to produce major changes and/or stronger cohesion in diverse global alliances. Several of these are linked to Middle East and/or Arab alliances that have been in the works for decades.

Just as the *League of Nations* failed but led to the formation of the *United Nations* (which has the potential to fail & lead to a third global body if the UN keeps heading in the direction it has been moving the past decade), the **1958 - 1961** Pan-Arab Alliance between Egypt & Syria could be an

important precursor to a bigger, more inclusive Pan-Arab Alliance in **2008 - 2011**, 50 years later.

The point is that the 3 1/2 year period from **2008 - 2011** could hold many similarities to previous 3 1/2-year periods of the past century, including 1958 - 1961, 1978 - 1981, 1988 - 1991 & 1998 - 2001...

...Although seemingly unrelated, there is another convergence of cycles - in **2008** - that I have discussed for well over a decade. It has to do with earth-disturbances and applies to earthquakes, volcanoes and tsunamis (but can also include or coincide with hurricanes, tornadoes, etc.).

...It links the two 12-year periods of powerful earthquakes in the past century and forms a type of sunspot-related Cycle Progression...pointing to **2008** as a significant peak within an overall (expected) 12-year period of increased earth instability and seismic activity.

...**2008** is the next in the sequence and could see a similar pattern as did the years of 1960 & 1964. The 1964 Alaskan earthquake was preceded by the 1960 Chilean, 9.5 earthquake and tsunami, which is attributed to be the largest earthquake in the world. This 1960 earthquake caused extensive damage in the US, Japan, Hawaii and the Phillipines... Will 2004 & 2008 parallel 1960 & 1964? *IT* www.insiidetrack.com [End excerpt from *Chapter XIV* - Entire text of *Chapter XIV* - and entire Report: **Focus 5768 III** - available to all new subscribers.]

Other Quotes from Focus 5768 III:

02/27/06 - ...The truly fascinating (and potentially terrifying) event is when all of these cycles converge in one narrow window of time. Such is the case in the period we are now in... and which ultimately extends into 2016/2017. However, even within that 10 - 15 year period, there are smaller periods of time that possess the greatest synergy... and the greatest potential.

2005 - 2008 is one of those.

With that said - and with years of additional groundwork already laid - I want to elaborate on a topic I discussed last month: Cycles of Disease....**If the next bout with pandemic disease coincides with the peak in sunspots - as it did in 1918 - it would likely occur around 2011 - 2012.** This corroborates last month's discussion on the long-term 'disease cycle' coming into play in **2010 - 2012.**

...So, here we are... entering a period (2007 - 2009) that is the decennial anniversary of every major flu outbreak or flu discovery of the past 120 years ...and taking the biggest disease-related gamble in history.

03-30-06 - ... We are currently in a decisive period, from March 20 - **April 19th**. For those that view the calendar from a 'natural' standpoint (as W.D. Gann did), this period is the 1st month of the natural year - beginning with the Vernal Equinox...Interestingly, all these events coincide with the Jewish celebration of Passover - an event that commemorated Israel's freedom & looked ahead to their Liberator. April 12 - 20th is this period in 2006. The bottom line is that many of the MOST decisive events in US history have occurred on April 19th. So, the question is: Will History Repeat Itself?...

04-27-06 - ... April 2006 ushered in decisive events that will probably be viewed as key turning points in the escalating 'war' between the 'West' and the 'Middle East'...April 2006 also experienced a sharp upswing in significant earthquakes worldwide. This is viewed as primarily a reinforcing/precursor event to the next major convergence of earth-disturbance cycles (in 2008).

This is why I want to examine another aspect of earth-disturbance cycles. It has to do with a unique Golden Ratio Summation Series...This series is one (of many) of the reasons I projected a sharp upswing in earth-disturbances beginning in late-2004. The December 2004 Indonesian quake and tsunami initiated this period - with uncanny accuracy - and ushered in what could be an overall 12-year period of escalating earthquakes, volcanoes and the resulting tsunamis. This sequence - as well as its relation to sunspot & War

cycles that peak in 2011 - 2012.

05-31-06- The month of May extended a shaky time as a flurry of global earthquakes and volcanic activity was experienced. Major quakes struck Turkey, Indonesia, Russia, Ecuador, Tonga, Alaska, Chile, Panama, Peru, Mexico and various offshore locations around the world. The markets exhibited some of this same shakiness as stock prices (and the value of the Dollar) tumbled lower. Precious Metal and Energy prices surged into May 2006 cycle tops and are expected to enter a lengthy period of consolidation and/or correction from this point forward.

The sudden spike in earth-disturbances (and the increasing potential for an eruption of Mt. Merapi in Indonesia and even some other critical volcanoes) reinforces the ongoing discussion regarding earth-disturbance cycles that were forecast to begin surging in late-2004... and to accelerate higher into 2008.

An intervening spike is possible in late-2006. If 2008 is going to experience another major earthquake (and/or volcano or tsunami), it would not be surprising to see a precursor event in 2006 - linking a series of earth-events in 2004, 2006 & 2008. An earthquake in the right location could force an alteration of global alliances... or simply an irrational reaction.

*Iran has experienced many major & deadly earthquakes and could be on tap for another. 2 of the 3 greatest were in 1968 & 1978. **40 & 30 years later is 2008.** Is there a pattern?*

Could a major Iranian earthquake in 2008 create a panic reaction by her gov't... or a nuclear accident? IT
